

Jaffa Website Copy

Home Page:

Take your business to new heights! With Jaffa, the sky's the limit.

Our team at Jaffa knows that you don't want the headaches and hassles of promoting your business, but you know it's necessary to get to the next level and beyond. That's where we can help. In fact, we can do it all for you...allowing you to concentrate on what you do best: *your* area of expertise and serving *your* clients.

Whether you need a brochure, website or an ad for your local newspaper or trade magazine, Jaffa is your answer. And whether you're a start-up company or an established business needing a logo update or brand building, we're your answer for that too.

We handle the entire process from concept and design through delivery and distribution with no hassles for you. With our flexibility, you can use as many or all of our services to fit *your* needs and budget. With your vision and our creativity and attention to the details, your business can really soar.

Graphic Design:

No matter what the medium or message is, it all starts with great graphic design. You want to look great whether it's in print or on the web. The Jaffa creative team is comprised of specialists in a variety of fields who will work with you to understand your vision. Then we'll provide you with the right look and feel...the perfect brand for your business... whether you're starting from scratch or updating a long-time image.

Logo Development

You know how important first impressions are. So do we. That's why logo designs are a critical step in successful branding. Your logo is your company's visual snapshot. It's what your clients remember when they think of your company, and chances are they'll remember your logo quicker than your name. A logo needs to capture the essence of your business in a memorable way. No small task, but our creative team will do just that for you.

Corporate Identity

No matter what business you're in, you've got to reflect the proper image to your clients whether it's clean and professional, rugged, whimsical or stylish. We can coordinate that image for you so that it's projected in all of your stationery: letterhead, envelopes and business cards. We'll ensure that every communication your clients see is consistent from logo use to font and typeface ratios to color matching. It's that attention to detail that sets us apart.

Brochure Design

Brochures are great little devices to promote your business and the services you offer, but they're a lot of work: you need copy written, photos taken, a layout, graphics and then someone to print them. Jaffa will do it all for you... every last bit of it with no headaches and hassles for you. We'll meet with you to discuss what you want to achieve (whether it's a broad overview or targeted to a series of specific services). Then we'll develop the words, photos, graphics and great design that pull it all together and get you the results you're looking for!

Most graphic designers won't handle the printing for you, and most printers don't handle the graphic design (and if they do, it's average at best). Jaffa pulls it all together for you and offers you the best of both worlds with no wasted time or problems for you.

Website Design:

Our Jaffa team prides itself in not only creating great looking websites but ones that function exactly the way you want them to. We develop clean, intuitive sites that won't frustrate you or your clients who use them.

And as with all of our product offerings, we'll take care of the entire project for you including the copywriting, photography and images. There's no need for you to worry about any of the "technical stuff" either. We can handle domain name acquisition and registration as well as arranging for hosting if needed. All you'll need to do is click to see your completed site! Plus our specialists will develop search strategies and keywords for your site so that it doesn't sit idly in cyberspace not working for you. Additionally, we can arrange for reports and training to help you target what's working best and providing your best return on investment.

Our designers understand the differences involved in designing for the internet and will put their expertise to work for you whether it's your first website or an update of one that's gotten a bit outdated.

Print:

Different projects require different printing methods, and there are a lot of details to monitor to keep each one on track and error-free. With Jaffa, you don't need to worry about using different vendors or monitoring the details. We'll manage every project for you, and we'll do it with the latest technology and equipment.

Your own marketing plan may require a variety of printing methods: traditional offset for your stationery packages, web printing for magazines, wide format for posters and banners, and digital printing for personalised direct mail. You can be assured of the highest quality and guaranteed delivery no matter which method you need. And our experienced staff knows exactly what that is. We'll use the right process for the right job at the right price. It adds up to the quality and savings you're looking for.

We offer all printing at competitive rates and can design projects that fit your budget. For you, it will be a trouble-free run from start to finish, no matter how big or how small it is.
